INTRODUCTION

This bulletin, the ninth of the series, gives for Saskatchewan the results of the Census of Agriculture, taken as of June 1, 1921. In Tables I to XI the figures of the Census of 1921 are compared with those of 1911 and in some instances with those of 1901. The returns of fruit, live stock and animal products not on farms were collected separately in 1921 and are so shown in these tables. They are also included in the totals for comparison with the 1911 Census, in which they were included but not separately presented. Tables XII to XVII present farm statistics by counties. The figures in this bulletin are subject to revision.

Number and Size of Farms.—The number of occupied farms of one acre and over in 1921, exclusive of Indian Reserves, was 119,451, as compared with 95,013 in 1911 and 13,445 in 1901 (Table I). Farm acreage in 1921 was 44,022,907 as against 28,099,207 in 1911 and 3,833,434 in 1901, which represents a gain of 24,265,773 acres or 633·0 per cent from 1901 to 1911, and of 15,923,700 acres or 56·7 per cent from 1911 to 1921. The average size of farms in 1921 was 368·1 acres, as compared with 295·2 acres in 1911 and 285·1 acres in 1901. The following statement shows the per cent distribution of farms by size in 1911 and 1921:

	1921	1911		1921	1911
	p.c.	p.c.		p.c.	p.c.
All occupied farms	100·0	100·0	51–100 acres	·7	·6
Under 5 acres	·3	·2	101–200 acres	31·0	50·9
5–10 acres	·2	·2	201 acres and over	67·4	47·8
11–50 acres	·4	·3			

Tenure of Farms.—The number of farms occupied by tenants in 1921 (Table 3) was 12,942, or 10·8 per cent of all farms, as compared with 3,497, or 3·7 per cent in 1911. The increase in the number of farms occupied by tenants during the decade was 270·1 per cent. The increase in the total number of farms during the same period was 25·7 per cent. The number of farms occupied by part owners and part tenants in 1921 was 13,841, as compared with 5,407 in 1911, showing an increase of 156·0 per cent. To obtain acreage rented, the total acreage of farms occupied by tenants has been added to the rented portions of farms occupied by part owners, part tenants. This gives a total of 8,599,322 acres in 1921, forming 19·6 per cent of total farm acreage in that year (excluding Indian Reserves), as compared with 2,541,931 acres in 1911, or 9·1 per cent of the total acreage. The number of farms occupied by managers in 1921 was 1,081, with an acreage of 1,010,056.

Value of Farm Property.—The value of all farm property in 1921 was $1,650,069,412, as against $832,812,560 in 1911 (Table IV). This shows an increase of 98·1 per cent, but in considering this increase, the difference between the price levels of 1911 and 1921 must be kept in mind. The largest increase (207·1 per cent) was in the value of implements and machinery; the smallest (69·8 per cent) in the value of live stock. Land increased in value by 81·8 per cent and buildings by 184·2 per cent. In 1921 the value of land was $1,060,510,192, or 64·3 per cent of all farm property; the value of buildings was $216,398,082, or 13·1 per cent; implements and machinery, $176,675,721, or 10·7 per cent; and live stock, $196,485,417, or 11·9 per cent. In 1911 the value of land was $583,401,337 or 70·1 per cent of all farm property; buildings were valued at $76,156,050, or 9·1 per cent of the total; implements and machinery at $57,538,712, or 6·9 per cent; and live stock at $115,716,461, or 13·9 per cent.

Condition of Farm Land.—The area of improved land in 1921, including that on Indian Reserves, was 25,037,401 acres, as compared with 11,871,907 acres in 1911 and 1,122,602 acres in 1901. The area of field crops in 1921 was 17,822,208 acres, as against 9,136,868 acres in 1911 and 655,537 acres in 1901.

Areas of Field Crops.—In 1911 and 1921 the enumerators obtained the areas sown to the various crops for the Census year, together with the areass own, the yield and value of the crops for the year preceding the Census. The Census of 1901 being taken as of date April 1, information as to the areas sown related only to the previous season.

A comparison of the acreages of the various field crops in 1900, 1910, 1911, 1920 and 1921 (Table VI) shows wheat as the crop chiefly sown in each of these years, with oats occupying second place. Barley was third in acreage in 1900 and in 1921; flax in 1910, 1911 and 1920. The area of the latter crop showed violent fluctuations between successive years, being 506,425 acres in 1910 and 1,153,861 in 1911, while it fell from 915,561 acres in 1920 to 368,365 acres in 1921. In all of the years listed, the area sown to hay was small, but the acreage of grains cut for hay in 1920 was considerable, ranking "other forage crops", in which it is included in Table VI, fourth in acreage for the year in question. The decrease in area of "other forage crops" from 1920 to 1921 is due mainly to grains for hay, the quantity of which is largely determined by

the seasonal conditions which obtain at a period later than that at which the Census is taken. The increase in the acreage of rye from the Census of 1911 to that of 1921 is noteworthy. The area under this crop was only 754 acres in 1910 and 2,271 acres in 1911. In 1920 it was 117,849 acres, and in 1921, 272,773 acres.

The respective areas of the principal crops in 1920 and 1921, and the percentages which they formed of the total area under field crops, were as follows:

	Acreage		Per cent of total	
	1920	1921	1920	1921
All field crops	16,765,807	17,822,208	100·0	100·0
Wheat	10,173,545	11,694,811	60·7	65·6
Oats	4,677,343	4,853,202	27·9	27·2
Flax	915,561	368,365	5·4	2·1
Barley	398,658	420,627	2·4	2·4
"Other forage crops" (i. e. other than hay or corn)	419,034	141,936	2·5	·8
Rye	117,849	272,773	·7	1·5
Potatoes	31,542	35,627	·2	·2

Yield of Field Crops.—Table VII furnishes a comparison of the yields of the various field crops in 1910 and 1920, and shows also the increase per cent and the average yield per acre in each of these years. All the principal crops, with the exception of flax, show larger production in 1920 than in 1910, but the increase was due wholly to extension of acreage, as the average yields were smaller in the later than in the earlier year. There were 115,507,342 bushels of wheat produced in 1920, as compared with 66,978,996 bushels in 1910, but the average yield per acre was only 11·4 bushels in 1920, as compared with 15·8 bushels at the preceding Census. The total quantity of oats produced in 1920 was 93,543,543 bushels, an average of 20·0 bushels per acre. In 1910 this crop amounted to 58,922,791 bushels, averaging 31·2 bushels to the acre. With an acreage substantially larger in 1920 than in 1910, flax showed a smaller yield in the later year, producing only 3,537,863 bushels as compared with 3,893,160 bushels. The average per acre was 3·9 bushels in 1920 as against 7·7 bushels in 1910. There were 6,603,711 bushels of barley in 1920, averaging 16·6 bushels, as compared with 3,061,007 bushels in 1910, an average of 23·6 per acre. The small acreage sown to cultivated hay has already been noted. In consequence, the production is unimportant, amounting to only 16,632 tons in 1920. In the same year there were 799,475 tons of prairie hay cut, while "other forage crops", chiefly made up of grains cut for hay, totalled 407,976 tons.

Value of Field Crops.—The value of all field crops in 1920 (Table VIII) was $246,814,000, as compared with $79,954,903 for 1910, an increase of over 200 per cent, attributable to the change in price level and the greater production of most crops, due to larger acreage. Wheat is the most valuable crop, with oats second. These two crops in 1920 accounted for 89·2 per cent of the value of all field crops. In the same year, prairie hay, flax and "other forage crops" came next in the order named. The value of the principal field crops in 1920, and the percentages which they formed of the total, were as follows:

	Value in 1920	Percentage of total
All field crops	$246,814,000	100·0
Wheat	183,579,377	74·4
Oats	36,490,173	14·8
Prairie hay	6,180,993	2·5
Flax	5,867,568	2·4
"Other forage crops" (i. e. other than cult. hay, prairie hay or corn)	5,199,344	2·1
Barley	4,224,533	1·7
Potatoes	2,990,876	1·2

Fruit.—The Census of 1921, like the preceding one, showed very small returns of fruit and none of maple syrup or sugar. The fruit reported in the Census was the production of 1920, and the fruit trees were those standing at the time the Census was taken, in June, 1921. The figures for the Census of 1911 were collected on a similar basis.

The number of apple trees enumerated (including crab apples) decreased from 6,883 in 1911 to 904 in 1921. The production was only 90 bushels in 1910 and 145 bushels in 1920. There were 1,240 plum and prune trees in 1921, as against 2,925 in 1911. The yield was 17 bushels in 1910 and 297 bushels in 1920.

Amongst small fruits, currants and gooseberries yielded 14,966 quarts in 1920, as against 18,545 quarts in 1910. Other small fruits were of less importance.

The value of all fruits was $7,293 in 1920, as compared with $4,155 in 1910. Currants nd gooseberries contributed 44·0 per cent of the total value in 1920.

Animal Products.—These include dairy products, eggs, wool and honey and wax. The quantity of milk produced was given as 962,231,714 pounds in 1920, as compared with 662,092,621 pounds in 1910, showing an advance of 45·3 per cent. The production on farms in 1920 was 929,102,984 pounds, constituting 96·6 per cent of the total. The number of cows milked on farms was reported as 258,246, so that the average production per cow was 3,598 pounds. The value of milk produced in 1920 was $17,061,122, or an average of 1·8 cents per pound. This value was calculated from that of the dairy products sold. It showed an increase of 135·5 per cent over the value for 1910, which was $7,245,950, averaging 1·1 cents per pound. There were 15,832,658 pounds of home-made butter produced in 1920, as compared with 12,053,201 pounds in 1910.

The total number of eggs produced in 1920 was 19,564,870 dozen, as compared with 11,437,440 dozen in 1910, showing an increase of 71·1 per cent. Of the total quantity in 1920, there were 18,328,201 dozen, or 93·7 per cent, produced on farms, and 1,236,669 dozen, or 6·3 per cent, elsewhere than on farms. The total egg production of 1920 was valued at $7,477,121, or 38·2 cents per dozen, as compared with $2,248,998 for 1910, averaging 19·7 cents per dozen. The increase in the total value was 232·5 per cent.

There were 107,122 sheep shorn in 1920 and 743,837 pounds of wool obtained. This quantity showed an increase of 126·5 per cent over the figure for 1910, which was 328,397 pounds. The value of wool in 1920 was $154,331, or 20·7 cents per pound, as compared with $59,628 for 1910, averaging 18·2 cents per pound, an increase in total value of 158·8 per cent.

The quantity of honey produced on farms in 1920 was 4,688 pounds, while the production of wax totalled 148 pounds. Elsewhere than on farms there were only 179 pounds of honey and wax produced, making the total quantity of honey and wax for the province 5,015 pounds, of which almost all was on farms. The production in 1910 was 4,428 pounds. The value of honey and wax in 1920 was $1,718, as compared with $520 in 1910.

Live Stock, June 1, 1921.—The number of horses and mules in the province on June 1, 1921, was 1,098,188, of which 1,084,250, or 98·7 per cent, were on farms, and only 13,938, or 1·3 per cent, not on farms. The total number for 1911 was 507,468, so that the 1921 figure shows an increase of 590,720 head, or 116·4 per cent. The number of mules included in 1921 was 6,681. The value of horses and mules in 1921 was $139,045,871, as compared with $88,759,211, in 1911, showing an increase of 56·7 per cent. This gives a lower average value for horses in 1921 than in 1911. The classifications by age, etc., in the two years are not similar, hence it is impossible to make a comparison in average value by classes.

Cattle numbered 1,312,906 in 1921, as against 633,638 in 1911, an increase of 107·2 per cent. The value of cattle increased by 128·2 per cent, from $21,833,295 in 1911 to $49,832,100 in 1921. Cows in milk or in calf on June 1, 1921, numbered 423,821. No proper comparison can be made in this respect with 1911, as the schedule in that year called for "Milch cows", which would exclude a considerable number of cows amongst the beef cattle. The number of milch cows enumerated in 1911 was 181,168, and this may be compared with the number of cows milked in 1920, which was reported as 258,246.

The number of sheep and lambs in 1921 was 195,538, as compared with 114,216 in 1911. The value was $1,445,635 in 1921, as against $621,409 in 1911. The increase in the number reported was thus 71·2 per cent, and in the value, 132·6 per cent.

Swine numbered 424,298 in 1921, as against 286,295 in 1911, an increase of 48·2 per cent. The value of swine in 1921 was $4,955,814, which, as compared with the 1911 value, $2,512,540, showed an increase of 97·2 per cent.

There were 7,838,664 hens and chickens reported in 1921. This was an increase of 141·7 per cent over the 1911 Census, which showed 3,242,820 hens and chickens. Turkeys increased from 72,616 in 1911 to 237,341 in 1921; ducks, from 54,968 in 1911 to 86,317 in 1921; geese, from 22,999 in 1911 to 65,083 in 1921. The value of all poultry in 1921 was $4,446,234, as compared with $1,988,081 in 1911, an increase of 123·6 per cent.

There were 1,705 hives of bees in 1921, with a value of $15,386, as compared with 253 hives in 1911, with a value of $1,925.

INTRODUCTION

Ce bulletin, le neuvième de la série, donne le résultat du recensement agricole de la Saskatchewan, effectué à la date du 1er juin, 1921. Une comparaison est établie dans les tableaux I–XI, entre les chiffres du dernier recensement et ceux de 1911, et aussi parfois ceux de 1901. Les rapports des fruits, du bétail et des produits animaux, non dans les exploitations agricoles, ont été recueillis séparément en 1921, comme l'indiquent ces tableaux. Ils sont aussi compris dans les totaux pour permettre la comparaison avec le recensement de 1911, lequel engloba le tout sans distinction. Les tableaux XII à XVII donnent les statistiques des fermes par comtés. Les chiffres du présent bulletin sont sujets à revision.

Nombre et superficie des exploitations agricoles.—Le nombre des exploitations agricoles d'une acre et plus en 1921, les Réserves Indiennes non comprises, était de 119,451, comparativement à 95,013 en 1911 et à 13,445 en 1901 (Tableau I). La superficie des exploitations agricoles en 1921 était de 44,022,907, contre 28,099,207 en 1911 et 3,833,434 en 1901, représentant un gain de 24,265,773 acres ou 633·0 pour cent de 1901 à 1911, et de 15,923,700 acres ou 56·7 pour cent de 1911 à 1921. La superficie moyenne des exploitations agricoles, en 1921, était de 368·1 acres, comparativement à 295·2 acres en 1911 et à 285·1 en 1901. Les chiffres suivants indiquent la répartition proportionnelle des exploitations agricoles selon leur étendue, en 1911 et 1921:

	1921	1911
	pour cent	pour cent
Toutes exploitations agricoles	100·0	100·0
Moins de 5 acres	·3	·2
5— 10 acres	·2	·2
11— 50 acres	·4	·3
51—100 acres	·7	·6
101—200 acres	31·0	50·9
201 acres et au-dessus	67·4	47·8

Tenure des fermes.—Le nombre de fermes exploitées par des locataires en 1921 (Tableau III) était de 12,942, ou 10·8 pour cent de la totalité des fermes, comparativement à 3,497, ou 3·7 pour cent en 1911. L'augmentation dans le nombre de fermes exploitées par des locataires durant cette décade était de 270·1 pour cent. L'augmentation dans le nombre total des fermes durant cette même période était de 25·7 pour cent. Le nombre d'exploitations agricoles dont l'exploitant possède une partie à titre de propriétaire et l'autre partie à titre de locataire était de 13,841 en 1921, contre 5,407 en 1911, soit une augmentation de 156·0 pour cent. Pour connaître l'étendue des fermes louées, on a dû ajouter à leur superficie l'étendue des parties louées des fermes dont l'exploitant possède une partie à titre de propriétaire et l'autre partie à titre de locataire; ce qui donne un total de 8,599,322 acres en 1921, soit 19·6 pour cent de l'étendue totale des exploitations agricoles durant cette année, (les Réserves Indiennes non comprises), comparativement à 2,541,931 acres, ou 9·1 pour cent en 1911. Le nombre de fermes dirigées par des régisseurs en 1921 était de 1,081, avec une superficie de 1,010,056 acres.

Valeur des exploitations agricoles.—La valeur de toutes exploitations agricoles en 1921 s'élevait à $1,650,069,412, comparativement à $832,812,560 en 1911 (Tableau IV). Ceci indique une augmentation de 98·1 pour cent, attribuable en grande partie à la différence des prix courants de 1911 à 1921. La plus forte augmentation proportionnelle se trouve dans la valeur de la machinerie et de l'outillage (207·1 pour cent) et la plus faible dans la valeur du bétail (69·8 pour cent.) La valeur de la terre a augmenté de 81·8 pour cent et celle des bâtiments de 184·2 pour cent. En 1921 la valeur de la terre était de $1,060,510,192, ou 64·3 pour cent de toutes les exploitations agricoles; la valeur des bâtiments était de $216,398,082 ou 13·1 pour cent; la valeur de la machinerie et de l'outillage, de $176,675,721 ou 10·7 pour cent, et la valeur du bétail de $196,485,417 ou 11·9 pour cent. En 1911 la valeur de la terre était de $583,401,337 ou 70·1 pour cent de toutes les exploitations agricoles; la valeur des bâtiments, de $76,156,050 ou 9·1 pour cent; la valeur de la machinerie et de l'outillage, de $57,538,712 ou 6·9 pour cent et la valeur du bétail, de $115,716,461 ou 13·9 pour cent.

Composition des fermes.—La superficie en terres améliorées en 1921, y compris les Réserves Indiennes, était de 25,037,401 acres, comparativement à 11,871,907 acres en 1911 et à 1,122,602 acres en 1901. La superficie en récoltes des champs était de 17,822,208 acres en 1921, contre 9,136,868 acres en 1911 et 655,537 en 1901.

Superficie en cultures.—En 1911 et 1921 les énumérateurs ont relevé les étendues des différentes cultures de ces deux années, ainsi que les emblavures, la production et la valeur des récoltes pour l'année précédente dans chaque recensement; mais le recensement de 1901 ayant été fait au premier avril, les renseignements quant aux emblavures ne se rapportaient qu'à la saison précédente. Une comparaison des superficies des différentes récoltes en 1900, 1910, 1911, 1920 et 1921 (Tableau VI) montre le blé comme étant la culture principale dans chacune de ces années, avec l'avoine en second lieu. L'orge était troisième en superficie en 1900 et en 1921; le lin en 1910, 1911 et 1920. La superficie de cette dernière culture a subi de fortes fluctuations entre les années successives, soit de 506,425 acres en 1910 à 1,153,861 en 1911, tandis qu'elle est tombée de 915,561 acres en 1920 à 368,365 acres en 1921. Dans chacune des années mentionnées la superficie en foin était faible, mais la superficie en grains coupés verts pour fourrage en

1920 était considérable, mettant ainsi les "autres récoltes fourragères", dont elle faisait partie, au quatrième rang pour l'année en question. La diminution en superficie des "autres récoltes fourragères", de 1920 à 1921, est due en grande partie aux grains coupés verts pour fourrage fortement déterminée par les conditions atmosphériques survenues postérieurement à la date du recensement. L'augmentation dans la superficie en seigle, de 1911 à 1921, est remarquable; l'étendue sous cette culture n'était que de 754 acres en 1910 et 2,271 acres en 1911, tandis qu'en 1920 elle était de 117,849 acres et en 1921 de 272,773 acres.

Les superficies respectives des principales récoltes en 1920 et 1921, ainsi que la proportion qu'elles forment par rapport à la superficie totale sous culture sont ainsi représentées:—

	Superficie		Pourcentage de la totalité	
	1920	1921	1920	1921
Toutes cultures	16,765,807	17,822,208	100·0	100·0
Blé	10,173,545	11,694,811	60·7	65·6
Avoine	4,677,343	4,853,202	27·9	27·2
Lin	915,561	368,365	5·4	2·1
Orge	398,658	420,627	2·4	2·4
"Autres récoltes fourragères" (autre que le foin etle blé d'Inde)	419,034	141,936	2·5	·8
Seigle	117,849	272,773	·7	1·5
Pommes de terre	31,542	35,627	·2	·2

Production des récoltes.—Le tableau VII établit une comparaison entre la production des différentes cultures en 1910 et 1920, et indique aussi l'augmentation pour cent et la moyenne de rendement par acre pour chacune de ces années. Toutes les principales cultures, à l'exception du lin, indiquent une plus grande production en 1920 qu'en 1910, mais cette augmentation est due entièrement à l'extension de superficie, vu que la moyenne du rendement était moindre dans la dernière que dans la première année. Il y a eu une production de 115,507,342 boisseaux de blé en 1920, comparativement à 66,978,996 boisseaux en 1910, mais la moyenne de rendement par acre n'était seulement que de 11·4 boisseaux en 1920, contre 15·8 boisseaux au recensement précédent. La quantité totale d'avoine produite en 1920 était de 93,543,543 boisseaux, soit une moyenne de 20·0 boisseaux par acre, tandis qu'en 1910 cette culture s'élevait à 58,922,791 boisseaux, représentant une moyenne de 31·2 boisseaux par acre. Le lin, avec une superficie beaucoup plus grande en 1920 qu'en 1910, montrait une plus faible production en cette dernière année, soit seulement 3,537,863 boisseaux, contre 3,893,160. La moyenne par acre était de 3·9 boisseaux en 1920, contre 7·7 en 1910. Il y a eu 6,603,711 boisseaux d'orge produits en 1920, représentant une moyenne de 16·6 boisseaux, comparativement à 3,061,007 boisseaux en 1910, ou une moyenne de 23·6 boisseaux par acre. La mince étendue en foin cultivé a déjà été mentionnée; conséquemment, la production en est peu importante, se montant seulement à 16,632 tonnes en 1920. Durant cette même année il a été coupé 799,475 tonnes de foin de prairie, tandis que les "autres récoltes fourragères", presque toutes composées de grains coupés verts formaient un total de 407,976 tonnes.

Valeur des récoltes.—La valeur de toutes les récoltes en 1920 (Tableau VIII) était de $246,814,000, comparativement à $79,954,903 en 1910, soit une augmentation de plus de 200 pour cent, attribuable aux prix en cours, ainsi qu'à une plus grande production dans la plupart des cultures due à une plus grande superficie. Le blé est au premier rang en valeur, suivi de l'avoine. Ces deux récoltes en 1920 représentaient 89·2 pour cent de la valeur totale des récoltes des champs. Dans cette même année, le foin de prairie, le lin et les "autres récoltes fourragères", venaient ensuite dans l'ordre nommé. La valeur des principales récoltes des champs en 1920, ainsi que la proportion pour cent par rapport à la valeur totale de toutes récoltes, étaient représentées de la manière suivante:—

	Valeur en 1920	Pourcentage du total
Toutes récoltes	$246,814,000	100·0
Blé	183,579,377	74·4
Avoine	36,490,173	14·8
Foin de prairie	6,180,993	2·5
Lin	5,867,568	2·4
"Autres récoltes fourragères" (autre que foincultivé, foin de prairie ou blé d'inde)	5,199,344	2·1
Orge	4,224,533	1·7
Pommes de terre	2,990,876	1·2

Fruits.—Le recensement de 1921, comme le précédent, contenait peu de rapports sur les fruits et aucune sur le sirop et le sucre d'érable. Les fruits dont il a été fait rapport au recensement représentaient la production de 1920, et les arbres fruitiers dénombrés, ceux qui étaient debout à la date du recensement, en juin, 1921. On a procédé de la même manière au recensement de 1911.

Le nombre de pommiers dénombrés a décru de 6,883 en 1911 à 904 en 1921. La production était de 90 boisseaux en 1910, contre 145 boisseaux en 1920. Le nombre de pruniers était de 1,240 en 1921, contre 2,925 en 1911, et la production, de 17 boisseaux en 1910 contre 297 boisseaux en 1920.

Parmi les petits fruits, les cassis et les groseilles ont produit 14,966 pintes en 1920, contre 18,545 pintes en 1910. Les autres petits fruits étaient de moindre importance.

La valeur de tous les fruits était de $7,293 en 1920, comparativement à $4,155 en 1910. Les cassis et les groseilles ont contribué 44·0 pour cent de la valeur totale en 1920.

Produits animaux.—Ils comprennent les produits laitiers, les œufs, la laine, le miel et la cire. La quantité de lait produit en 1920 était de 962,231,714 livres, comparativement à 662,092,621 livres en 1910, soit un gain de 45·3 pour cent. La production sur les fermes en 1920 était de 929,102,984 livres, représentant 96·6 pour cent du total. Le nombre de vaches traites sur les fermes était de 258,246, de sorte que la production moyenne par vache était de 3,598 livres. La valeur du lait produit en 1920 était de $17,061,122, ou une moyenne de 1·8 sou par livre. Cette valeur a été calculée d'après celle des produits laitiers vendus, laquelle indiquait une augmentation de 135·5 pour cent sur la valeur de 1910, portée à $7,245,950 et représentant une moyenne de 1·1 sou par livre. Il a été produit 15,832,658 livres de beurre de ménage en 1920, comparativement à 12,053,201 livres en 1910.

La quantité d'œufs produits en 1920 était de 19,564,870 douzaines, contre 11,437,440 douzaines en 1910, soit une augmentation de 71·1 pour cent. De la quantité donnée pour 1920, on comptait 18,328,201 douzaines, ou 93·7 pour cent produits sur les fermes et 1,236,669 douzaines, ou 6·3 pour cent ailleurs que sur les fermes. La production totale des œufs en 1920 représentait une valeur de $7,477,121, ou 38·2 sous par douzaine, comparativement à $2,248,998 en 1910, représentant une moyenne de 19·7 sous par douzaine. L'augmentation dans la valeur totale était de 232·5 pour cent.

Le nombre de moutons tondus en 1920 était de 107,122, et la production de la laine de 743,837 livres. Cette quantité indiquait une augmentation de 126·5 pour cent sur les chiffres de 1910, qui étaient de 328,397 livres. La valeur de la laine en 1920 était de $154,331 ou 20·7 sous par livre, comparativement à $59,628 pour 1910, représentant une moyenne de 18·2 sous par livre, soit une augmentation de 158·8 pour cent dans la valeur totale.

La quantité de miel produit sur les fermes en 1920 était de 4,688 livres tandis que la production de la cire était de 148 livres. Ailleurs que sur les fermes il a été produit seulement 179 livres de miel et de cire, formant une quantité totale de 5,015 livres de miel et de cire pour la province, dont la plus grande partie sur les fermes. La production en 1910 était de 4,428 livres. La valeur du miel et de la cire en 1920 était de $1,718, contre $520 en 1910.

Animaux domestiques, le 1er juin, 1921.—Le nombre de chevaux et de mules dans la province, le 1er juin 1921, était de 1,098,188, dont 1,084,250 ou 98·7 pour cent sur les fermes, et seulement 13,938 ou 1·3 pour cent ailleurs que sur les fermes. Le nombre total pour 1911 était de 507,468, de sorte que les chiffres pour 1921 indiquent une augmentation de 590,720 têtes, ou 116·4 pour cent. Le nombre de mules comprises dans les chiffres de 1921 était de 6,681. La valeur des chevaux et des mules en 1921 était de $139,045,871, comparativement à 88,759,211 en 1911, soit une augmentation de 56·7 pour cent. Ceci indique pour les chevaux une plus faible valeur moyenne en 1921 qu'en 1911. Comme les classifications selon l'âge, etc., pour les deux recensements ne sont pas comparables, il est donc impossible d'établir une comparaison dans la valeur moyenne par classe.

Le nombre de bêtes à cornes était de 1,312,906 en 1921, comparativement à 633,638 en 1911, soit une augmentation de 107·2 pour cent. La valeur des bêtes à cornes a augmenté de 128·2 pour cent, de $21,833,295 en 1911 à $49,832,100 en 1921. Le nombre de vaches en lactation ou en gestation, en juin, 1921, était de 423,821. Il ne peut être fait ici de comparaison judicieuse avec 1911, vu que la formule employée en cette dernière année ne s'appliquait qu'aux "vaches laitières", retranchant ainsi un nombre considérable de vaches maintenues pour la production du bœuf. Le nombre de vaches laitières dénombrées en 1911 était de 181,168, et ce chiffre peut se comparer au nombre de vaches traites en 1920, qui était de 258,246.

Le nombre de moutons et agneaux en 1921 était de 195,538, comparativement à 114,216 en 1911, avec une valeur de $1,445,635 en 1921, contre $621,409 en 1911. L'augmentation en nombre était donc de 71·2 pour cent, et en valeur, de 132·6 pour cent.

Le nombre de porcs était de 424,298 en 1921, contre 286,295 en 1911, soit une augmentation de 48·2 pour cent, avec une valeur de $4,955,814 en 1921, contre $2,512,540 en 1911, ou 97·2 pour cent.

Le nombre de poules et poulets s'élevait à 7,838,664 en 1921, représentant une augmentation de 141·7 pour cent sur les chiffres de 1911, qui se portaient à 3,242,820. Le nombre de dindes a augmenté de 72,616 en 1911 à 237,341 en 1921; les canards, de 54,968 en 1911 à 86,317 en 1921; les oies, de 22,999 en 1911 à 65,083 en 1921. La valeur de toutes les volailles était de $4,446,234 en 1921, comparativement à $1,988,081 en 1911, soit une augmentation de 123·6 pour cent.

Le nombre de ruches dénombrées en 1921 était de 1,705, avec une valeur de $15,386, comparativement à 253 ruches en 1911, d'une valeur de $1,925.

DIVISION OF SASKATCHEWAN FOR CENSUS PURPOSES

There being no fixed administrative divisions in Saskatchewan corresponding to counties in Eastern Canada, it has been found impracticable to compare the data collected for rural parts at any census with that of a previous one, for smaller areas than the province as a whole. Therefore to overcome this difficulty the Bureau has divided the province for statistical purposes into census divisions, each containing a certain number of rural municipalities, cities, towns and incorporated villages.

The area comprised in each division is shown by the following schedule.

Division No. 1 comprises the municipalities of Argyle (1), Mount Pleasant (2), Enniskillen) 3), Coalfields (4), Estevan (5), Storthoaks (31), Reciprocity (32), Moose Creek (33),Browning (34), Benson (35), Antler (61),Moose Mountain (63), Brock (64), Tecumseh (65), Maryfield (91), Walpole (92), Wawken (93), Hazelwood (94), Golden West (95); Indian Reserves—Moose Mountain; Towns—Alameda, Arcola, Carlyle, Carnduff, Estevan, Oxbow; Villages—Antler, Bienfait, Carievale, Fairlight, Forget, Frobisher, Gainsboro, Glen Ewen, Heward, Kennedy, Kisbey, Lampman, Manor, Maryfield, North Portal, Redvers, Roche Percee, Stoughton, Wawchope, Wawota.

Division No. 2 comprises the municipalities of Cambria (6), Souris Valley (7), Lake Alma (8), Surprise Valley (9), Happy Valley (10), Cymri (36), Lomond (37), Laurier (38), The Gap (39), Bengough (40), Griffin (66), Weyburn (67), Brokenshell (68), Norton (69), Key West (70), Fillmore (96), Wellington (97), Scott (98), Caledonia (99), Elmsthorpe (100); Cities—Weyburn; Towns—Milestone, Ogema, Radville; Yellow Grass; Villages—Amulet, Avonlea, Bengough, Bromhead, Ceylon, Colgate, Creelman, Fillmore, Forward, Goodwater, Griffin, Halbrite, Horizon, Khedive, Lang, Macoun, McTaggart, Midale, Osage, Pangman, Tribune, Truax, Tyvan.

Division No. 3 comprises the municipalities of Hart Butte (11), Poplar Valley (12), Willow Bunch (42), Waverley (44), Mankota (45), Glen McPherson (46), Excel (71), Lake of the Rivers (72), Stonehenge (73), Wood River (74), Pinto Creek (75), Auvergne (76), Terrell (101), Lake Johnson (102), Sutton (103), Gravelbourg (104), Glen Bain (105), Whiska Creek (106); Unorganized Territorial Units 13, 14, 15, 16, 43; Indian Reserves—Wood Mountain; Towns—Assiniboia, Gravelbourg; Villages—Aneroid, Ardill, Congress, Ettington, Expanse, Hazenmore, Kincaid, Lafleche, Limerick, Mazenod, Meyronne, Mitchellton, Mossbank, Neville, Palmer, Ponteix, Readlyn, Spring Valley, Vanguard, Vantage, Verwood, Viceroy, Woodrow.

Division No. 4 comprises the municipalities of Lone Tree (18), Frontier (19), White Valley (49), Reno (51), Wise Creek (77), Grassy Creek (78), Arlington (79), Lac Pelletier (107), Bone Creek (108), Carmichael (109), Piapot (110), Maple Creek (111); Unorganized Territorial Units 17, 20, 21, 22, 47, 48, 50, 52, 80, 81, 82, 112; Towns—East End, Maple Creek, Shaunavon; Villages—Admiral, Cadillac, Carmichael, Consul, Dollard, Hatton, Piapot, Robsart, Scotsguard, Vidora.

Division No. 5 comprises the municipalities of Moosomin (121), Martin (122), Silverwood (123), Kingsley (124), Chester (125), Rocanville (151), Spy Hill (152), Willowdale (153), El Capo (154), Wolseley (155), Langenburg (181), Fertile Belt (183), Grayson (184), McLeod (185), Churchbridge (211), Saltcoats (213), Cana (214), Stanley (215); Indian Reserves—Crooked Lake Agency; Towns—Bredenbury, Broadview Fleming, Grenfell, Lemberg, Melville, Moosomin, Saltcoats, Wapella, Whitewood, Wolseley; Villages—Atwater, Bangor, Birmingham, Churchbridge, Dubuc, Duff, Esterhazy, Fenwood, Glenavon, Goodeve, Grayson, Killaly, Kipling, Langenburg, MacNutt, Neudorf, Otthon, Rocanville, Spy Hill, Stockholm Summerberry, Tantallon, Waldron, Welwyn, Windthorst.

Division No. 6 comprises the municipalities of Montmartre (126), Francis (127), Lajord (128), Bratt's Lake (129), Redburn (130), Indian Head (156), South Qu'Appelle (157), Edenwold (158), Sherwood (159), Pense (160), Abernethy (186), North Qu'Appelle (187), Lumsden (189), Dufferin (190), Tullymet (216), Lipton (217), Cupar (218), Longlaketon (219), McKillop (220), Sarnia (221); Indian Reserves—Qu'Appelle Agency, Assiniboine Agency, File Hill Agency; Cities—Regina; Towns—Balgonie, Francis, Indian Head, Lumsden, Qu'Appelle, Rouleau, Sintaluta, Strasbourg; Villages—Abernethy, Balcarres, Belle Plaine, Bethune, Briercrest, B-Say-Tah, Bulyea, Chamberlain, Craven, Cupar, Dilke, Disley, Drinkwater, Dysart, Earl Grey, Edenwold, Findlater, Fort Qu'Appelle, Grand Coulee, Holdfast, Kendal, Kronau, Lebret, Lipton, Markinch, McLean, Montmartre, North Regina, Odessa, Pense, Penzance, Pilot Butte, Regina Beach, Sedley, Silton, Southey, Vibank, Wilcox.

Division No. 7 comprises the municipalities of Baildon (131), Hillsborough (132), Rodgers (133) Shamrock (134), Lawtonia (135), Coulee (136), Moose Jaw (161), Caron (162), Wheatlands (163), Chaplin (164), Morse (165), Excelsior (166), Marquis (191), Eyebrow (193), Enfield (194), Vermilion Hills (195), Craik (222), Huron (223), Maple Bush (224), Canaan (225), Victory (226), Coteau (255), King George (256); Cities—Moose Jaw; Towns—Caron, Craik, Herbert, Morse, Mortlach; Villages—Aylesbury, Birsay, Bridgeford, Brownlee, Central Butte, Chaplin, Dunblane, Ernfold, Eyebrow, Hodgeville, Keeler, Lawson Lucky Lake, Marquis, Mawer, Parkbeg, Riverhurst, Rush Lake, Tugaske, Tuxford, Waldeck.

Division No. 8 comprises the municipalities of Swift Current (137), Webb (138), Gull Lake (139), Big Stick (141), Bitter Lake (142), Saskatchewan Landing (167), Riverside (168), Pittville (169), Keebleville (171), Enterprise (172), Lacadena (228), Miry Creek (229), Clinworth (230), Happyland (231), Deer Forks (232), Monet (257), Fairview (258), Snipe Lake (259), Newcombe (260), Royal Canadian (261), Mantario (262); Unorganized Territorial Units 140, 170, 227; Cities—Swift Current; Towns—Cabri, Gull Lake, Leader; Villages—Abbey, Burstall, Eatonia, Elrose, Eston, Estuary, Glidden, Hughton, Lancer, Lemsford, Pennant, Plato, Portreeve, Prelate, Richlea, Sceptre, Shackleton, Success, Tompkins, Webb.

Division No. 9 comprises the municipalities of Calder (241), Wallace (243), Orkney (244), Garry (245) Cote (271), Sliding Hills (273), Good Lake (274), Insinger (275), St. Phillips (301), Keys (303), Buchanan (304), Invermay (305), Livingstone (331), Clayton (333), Preeceville (334), Hazel Dell, (335); Indian Reserves—Pelly Agency; Towns—Canora, Kamsack, Yorkton; Villages—Arran, Buchanan, Calder, Hyas, Insinger, Invermay, Norquay, Pelley, Preeceville, Rama, Rhein, Sheho, Springside, Stenen, Stornoway, Sturgis, Theodore, Togo, Veregin, Willowbrook, Wroxton.

Division No. 10 comprises the municipalities of Ituna Bon Accord (246), Kelross (247), Touchwood (248), Millington (249), Beaver (276), Emerald (277), Kutawa (278), Mount Hope (279), Foam Lake (306) Elfros (307), Big Quill (308), Prairie Rose (309), Sasman (336), Lakeview (337), Lakeside (338), Ayr (339); Indian Reserves—Muscowequans, Gordon, Day Star, Poorman, Fishing Lake; Towns—Wadena, Watson, Wynyard; Villages—Dafoe, Elfros, Foam Lake, Hubbard, Ituna, Jansen, Jasmin, Kandahar, Kelliher, Kuroki, Leross, Leslie, Lestock, Margo, Punnichy, Quill Lake, Quinton, Raymore, Semans, Tate.

Division No. 11 comprises the municipalities of Last Mountain Valley (250), Big Arm (251), Arm River (252), Willner (253), Loreburn (254), Wreford (280), Wood Creek (281), McCraney (282), Rosedale (283), Rudy (284), Osborne (310), Morris (312), Lost River (313), Dundurn (314), Wolverine (340), Viscount (341), Colonsay (342), Blucher (343), Cory (344); Indian Reserves—Moose Woods; Cities—Saskatoon; Towns—Davidson, Govan, Hanley, Lanigan, Nokomis, Outlook, Sutherland, Watrous; Villages—Allan, Bladworth, Bradwell, Broderick, Clavet, Colonsay, Drake, Dundurn, Duval, Elbow, Elstow, Girvin, Glenside, Guernsey, Hawarden, Imperial, Kenaston, Liberty, Lockwood, Loreburn, Meacham, Simpson, Strongfield, Venn, Viscount, Young, Zelma.

Division No. 12 comprises the municipalities of Fertile Valley (285), Milden (286), St. Andrews (287), Pleasant Valley (288), Montrose (315), Harris (316), Marriot (317), Mountain View (318), Loganton (345), Perdue (346), Biggar (347), Bushville (348), Park (375), Eagle Creek (376), Glenside (377), Rosemount (378), Prairie (408), Battle River (438); Indian Reserves—Mosquito, Sweet Grass, Red Pheasant; Towns—Asquith, Battleford, Biggar, Delisle, Langham, Rosetown, Zealandia; Villages—Ardath, Bounty, Conquest, Delmas, Dinsmore, Harris, Herschel, Kinley, Laura, Leney, Macrorie, McGee, Milden, Perdue Sovereign, Springwater, Stranraer, Swanson, Tessier, Vanscoy, Wiseton.

Division No. 13 comprises the municipalities of Hillsburg (289), Kindersley (290), Elma (291), Milton (292), Winslow (319), Oakdale (320), Prairiedale (321), Antelope Park (322), Grandview (349), Mariposa (350), Progress (351), Hearts Hill (352), Reford (379), Tramping Lake (380), Grass Lake (381), Eye Hill (382), Buffalo (409), Round Valley (410), Senlac (411), Cut Knife (439), Hillsdale (440), Manitou Lake (442); Indian Reserves—Poundmaker, Little Pine, Lucky Man; Towns—Alsask, Kerrobert, Kindersley, Macklin, Scott, Unity, Wilkie; Villages—Adanac, Brook, Cavell, Cut Knife, Denzil, Dodslands, Druid, Evesham, Flaxcombe, Handel, Kelfield, Landis, Leipzig, Loverna, Luseland, Major, Marengo, Netherhill, Plenty, Rock Haven, Salvador, Senlac, Smiley, Tramping Lake.

Division No. 14 comprises the municipalities of Kelvington (366), Ponass Lake (367), Spalding (368), Barrier Valley (397), Pleasantdale (398), Bjorkdale (426), Tisdale (427), Star City (428), Arborfield (456), Connaught (457), Willow Creek (458), Moose Range (486), Nipawin (487); Unorganized Territorial Units 361, 363, 364, 365, 391, 393, 394, 395, 396, 421, 423, 424, 425, 451, 453, 454, 455, 481, 483, 484, 485, 488, 511, 513, 514, 515, 516, 517, 518; Indian Reserves—Kinistino, Nut Lake, Shoal Lake, Red Earth; Towns—Melfort, Tisdale; Villages—Hudson Bay Jct., Naicam, Star City.

Division No. 15 comprises the municipalities of St. Peter (369), Humboldt (370), Bayne (371), Grant (372), Aberdeen (373), Warman (374), Lake Lenore (399), Three Lakes (400), Hoodoo (401), Fish Creek (402), Rosthern (403), Laird (404), Carrot River (429), Invergordon (430), St. Louis (431), Weldon (459), Birch Hills (460), Prince Albert (461), Duck Lake (463), Russia (490), Buckland (491); Unorganized Territorial Units 489, 519, 520, 521; Indian Reserves—Duck Lake Boarding School, One Arrow Band, Okemanis Band, John Smith Band, James Smith Band, Wahpaton Band; Cities—Prince Albert; Towns—Duck Lake, Humboldt, Rosthern, Vonda; Villages—Aberdeen, Beatty, Birch Hills, Bruno, Cudworth, Dalmeny, Dana, Domremy, Englefield, Hague, Hepburn, Howell, Kinistino, Laird, Lake Lenore, Muenster, Osler, St. Brieux, St. Gregor, Wakaw, Waldheim, Warman, Weldon.

Division No. 16 comprises the municipalities of Great Bend (405), Mayfield (406), Blaine Lake (434), Redberry (435), Douglas (436), North Battleford (437), Leask (464), Royal (465), Meeting Lake (466), Round Hill (467), Rozilee (493), Canwood (494), Shell River (495), Medstead (497); Unorganized Territorial Units (496, 523, 524, 525, 526, 527, 553, 554, 555, 556, 557, 587; Indian Reserves—Carleton Agency, Thunder Child, Sturgeon Lake; Cities—North Battleford; Towns—Radisson; Villages—Blaine Lake, Borden, Canwood, Denholm, Fielding, Hafford, Krydor, Leask, Marcelin, Maymont, Parkside, Richard, Ruddell, Shellbrook, Speers.

Division No. 17 comprises the municipalities of Meota (468), Turtle River (469), Paynton (470), Eldon (471), Wilton (472), Parkdale (498), Mervin (499), Paradise Hill (501), Britannia (502), Bright Sand (529), North Star (531); Unorganized Territorial Units 528, 532, 558, 559, 561, 562, 588, 589, 591, 592; Indian Reserves—Moosomin, Saultans, Meadow Lake, Waterhen, Onion Lake Agency; Towns—Lloydminster (part); Villages—Edam, Lashburn, Maidstone, Marshall, Meota, Mervin, Paynton, Turtleford, Vawn, Waseca.

Division No. 18 comprises northern unorganized parts; Indian Reserves—Fond du Lac Band, William Charles Band, Cumberland Band, Pine Bluff Band, Lac la Ronge, Lac Stanley, South End, Pelican Narrows, English River, Clear Lake, Canoe Lake.

DIVISION DU SASKATCHEWAN POUR FINS DE RECENSEMENT

Comme il n'existe pas de divisions administratives fixes dans le Saskatchewan, correspondant aux comtés des provinces de l'Est, il a été trouvé impossible d'y comparer les données recueillies quant aux endroits ruraux, avec celles obtenues à aucun recensement précédent pour une étendue moindre que celle de toute la province. Afin de surmonter cette difficulté le Bureau a divisé la province, pour fins statistiques, en circonscriptions de recensement dont chacune contient un certain nombre de municipalités rurales, de cités, de villes et de villages incorporés.

L'étendue comprise dans chaque circonscription est indiquée dans la liste suivante.

Circonscription n° 1.—Elle comprend les municipalités d'Argyle (1), Mount Pleasant (2), Enniskillen (3), Coalfields (4), Estevan (5), Storthoaks (31), Reciprocity (32), Moose Creek (33), Browning (34), Benson (35), Antler (61), Moose Mountain (63), Brock (64), Tecumseh (65), Maryfield (91), Walpole (92), Wawken (93), Hazelwood (94), Golden West (95); Réserves indiennes—Moose Mountain; Villes—Alameda, Arcola, Carlyle, Carnduff, Estevan, Oxbow; Villages—Antler, Bienfait, Carievale, Fairlight, Forget, Frobisher, Gainsboro, Glen Ewen, Heward, Kennedy, Kisbey, Lampman, Manor, Maryfield, North Portal, Redvers, Roche Percée, Stoughton, Wawchope, Wawota.
